The prior art of record neither suggest nor renders obvious the instant combination in a disc changer comprising a magazine for storing a plurality of arranged discs; a disc carrier for carrying a selected disc from the magazine to a reproducing position; a transporter for transporting the disc carrier in the disc arranging direction; a disc playing section for playing the selected disc carried from the magazine; a moving section which moves when the magazine is inserted into the disc changer; an urging member for urging the moving section; and a lock detector operable by the movement of the moving section, wherein when the magazine is inserted into the disc changer the moving section engages into an insertion groove provided on the magazine to lock the magazine on the disc changer, and actuates the lock detector as set forth in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
